

Name: _____

College Research Project

For this project you will be researching admissions information for the schools/vocational training that you would like to pursue after high school. We will complete the first table together in class looking at the University of Illinois admission requirements. Some helpful tips when conducting your search.

1. Visit the school's official website (search Google)
2. Look for an admissions menu
3. Look for admission requirements and information (for freshmen)
4. Some school do not post as much information as other....try other schools if you can't seem to find it at all.

School/Training	Website address	Average ACT/SAT score	Coursework required	Average Class rank	Number of students who apply	Number of students accepted	What other characteristics is this school looking for?
University of Illinois	http://admissions.illinois.edu/apply/requirements_freshman.html
